

BREASTFEEDING CORNER

❀ BECOME A BREASTFEEDING CHAMPION! ❀

Calling all Perinatal Professionals from Antepartum to Postpartum! We all know that breastfeeding is the natural and powerful way to give babies the best start in life. It provides everything they need to grow strong, healthy, and thrive. While breastfeeding is something moms and babies are born to do, success often comes with the right guidance, support, and encouragement — and that's where we come in!

👉 *Let's make a difference together!*

We're building an interdisciplinary team of caring, enthusiastic professionals who are passionate about helping families succeed in their breastfeeding journey. Together, we'll share ideas, learn evidence-based strategies, and support one another in providing the best possible care — every step of the way.

Join us and become a Breastfeeding Champion for our families, our colleagues, and our community! ❤️
